

PROFESSIONAL SUMMARY :

Front-End Developer with 1 year of experience at Marko & Brando as an HTML Developer. Skilled in creating responsive, clean UI using HTML, CSS, and basic JavaScript. Trained in React.js from Webskitters Academy, with a strong focus on building modern, user-friendly web interfaces.

TECHNICAL SKILLS :

- ✓ **Language:** JavaScript
- ✓ **Web Development:** HTML, CSS, SASS, APIs, DOM Manipulation, Git & Version Control
- ✓ **WebDev Tools:** VSCode, Chrome DevTools, Github, Vercel, Figma, Canva
- ✓ **Frameworks:** React.js, Next.js, Material UI, Bootstrap

WORK EXPERIENCE :

✓ MARKO & BRANDO (APRIL 2023 – APRIL 2024):

- Worked as an HTML Developer for 1 year
- Created responsive and visually appealing user interfaces using: HTML, CSS, JavaScript, jQuery, Bootstrap, AOS (Animate On Scroll), GSAP (GreenSock Animation Platform)
- Ensured cross-browser compatibility
- Wrote clean, well-structured, and maintainable code
- Focused on pixel-perfect designs and mobile-friendly layouts

✓ AIM ARCHIVES ONLINE (OCTOBER 2021 – FEBRUARY 2023):

- Worked on various digital marketing tasks, including: Image creation using Canva, Link building, Google My Business posting, Video submissions, Web3 postings
- Assisted in improving website visibility through off-page SEO strategies
- Contributed to consistent content promotion and engagement

PROJECTS :

✓ Marvilo (Expense Tracker) [Project Link](#)

Built a secure and responsive expense tracking web app using **Next.js, TypeScript, MUI, SCSS, and Supabase**. Features include user authentication, category-wise budget tracking, real-time income/expense management, data visualization with **Recharts**, CSV export, and dark mode. Focused on delivering a clean UI and personalized user experience across devices.

✓ Movieflix (Movie Streaming Website) [Project Link](#)

Developed a modern and responsive movie web app using **React.js, Supabase, MUI, React Hook Form, and SCSS**. Implemented secure authentication, movie browsing, trailer viewing, and search functionality with a polished, dynamic user experience enhanced by smooth navigation and custom styling.

✓ Marko & Brando (Official Website) [Project Link](#)

Developed the official company website using **HTML, CSS, SCSS, Bootstrap, JavaScript, jQuery, and AOS** for animations. Integrated **PHP Mailer** for contact form functionality. Delivered a fully responsive, interactive, and visually engaging website optimized for performance and user experience.

✓ Ayelet Montessori (Institutional Website) [Project Link](#)

Developed a responsive and visually engaging website for Ayelet Montessori using **HTML, SCSS, Bootstrap, jQuery, and AOS**. Focused on creating a warm, child-friendly design that showcases the school's Montessori philosophy, founders' story, and community values with smooth user experience across devices.

✓ Suruchi Sangha (Cultural Club Website) [Project Link](#)

Redesigned and developed the official website of Suruchi Sangha Sporting Club, using **HTML, SCSS, JavaScript, jQuery, and Bootstrap**. The website showcases the club's history, facilities, and activities with a modern, user-friendly design. Focused on responsive design and smooth user interactions. Awarded **First Prize** in **Webskitters Academy's** competition for this project.
